DTAA in most cases only resolves jurisdictional double taxation.

DTAA is basically negotiated document and should be read as such.

Double Taxation Avoidance Agreements

Indian tax laws

- **Section 90** - Empowers Government of India (‘GOI’) to enter into a DTAA for avoidance of double taxation

**BILATERAL**
- Between 2 countries only.
- Majority of DTAA are bilateral

ARTICLE 4 - Residence

**ARTICLE 4**

**Residence**

- Lays down criteria for determining residence of person
- "Resident of one of the States" means any person who, under the laws of that State, is liable to tax therein by reason of his domicile, residence, place of management or any other criterion of a similar nature.

**Objective**

- The concept of 'resident of a Contracting State' is required
  - in solving cases where double taxation arises in consequence of double residence
  - in solving cases where double taxation arises as a consequence of taxation in the State of residence and in the State of source or situs.

**Example**

- An individual has his permanent home in Country A and makes payment of taxes on its worldwide income. He has had a stay of more than six months in Country B and according to the legislation of Country B he is, in consequence of the length of the stay, taxed as being a resident of Country B. Thus, both Country claim that the individual is resident of respective country. This conflict is solved by DTAA.
Article 4
What if person is a resident in both States?

Tie-breaker applies if a person is resident in both States under Art. 4(1)

FOR INDIVIDUALS

RULE 1
Permanent Home / Centre of vital interests

RULE 2
Habitual Abode

RULE 3
National

RULE 4
Mutual Agreement by Competent Authorities

OTHER THAN INDIVIDUALS

Person is resident of State where Place of Effective Management (‘POEM’) is situated. OECD Commentary says:

- Place where key management and commercial decisions that are necessary for conduct of business are in substance made
- An entity may have more than one place of management, but it can have only one POEM

MLI provides for tie breaking to be resolved by mutual consideration by competent authorities
CASE STUDY # 1:

Let us examine application of Tie-breaker rules in case of a Sri-Lankan Cricketer married to an Indian resident:

a) By test of Permanent Home/ Centre of vital interests
b) Habitual Abode
c) By Nationality

Residence – India or Sri-Lanka?
Internationally accepted standards on POEM

OECD Commentary

• POEM of an entity shall be determined by competent authorities of two countries by way of mutual agreement.
• POEM determination is based on factors such as:
  • where the meetings of its BOD are held,
  • where the CEO and other senior executives usually carry on their activities,
  • where the senior day-to-day management of the person is carried on,
  • where the person’s headquarters are located, and
  • where its accounting records are kept.
• An entity may have more than one place of management, but it can have only one place of effective management at any one point of time.

UN Commentary

• The place where the company is actually managed and controlled.
• The place where the decision-making at the highest level on the important policies essential for the management of the company takes place.
• The place that plays a leading part in the management of a company from an economic and functional point of view.
• The place where the most important accounting books are kept.
CASE STUDY # 2:

Facts & Assumptions:

- XYZ is a company incorporated in Netherlands and is a tax resident of the Netherlands
- Its CEO and the Board of Directors meet in India and exercise control over its activities
- How will residence be determined under the India-Netherlands DTAA?
Article 5 - Permanent Establishment

Concept of PE

- Entities increasingly engage in economic activities across several tax jurisdictions
- PE test determines the right of source state to tax business profits
- Defined concept under DTAA

Concept of PE – under Article 5 of the OECD Model Convention (MC)

Residence State

Enterprise

Income

Source State

(a) Business Income of PE
(b) Passive Incomes

Taxation

Source Country’s right to tax Residents of Other Contracting State under DTAA:

- Taxation of passive income such as dividends, interest, royalties and fees for technical services on gross basis – income not effectively connected to PE
- Taxation of business income (including passive income) attributable to PE on net basis
**Article 5 - Permanent Establishment**

- Article 5(1) of the OECD MC governs basic rule for Fixed base PE:
  
  “For the purpose of this Convention, the term ‘permanent establishment’ means a fixed place of business through which the business of an enterprise is wholly or partly carried on”

- Identical definition under UN and US Model

- Elements of Fixed base PE:
  - Existence of ‘place of business’
  - Place of business is at disposal of the non-resident enterprise
  - Place of business must be ‘fixed’
  - Business is carried on wholly or partly through fixed place of business

- Agent’s activities are not dependent wholly or almost wholly on foreign enterprise or on other enterprises subject to common control of the foreign enterprise\(^1\)

**Dependent Agent**
- has and **habitually exercises authority to conclude contracts** for foreign enterprise;
- has no such authority, but **habitually maintains stock** of goods & regularly **delivers** goods;
- **habitually secures orders**, wholly or almost wholly for foreign enterprise

  - “The fact that a company which is a resident of a Contracting State controls or is controlled by a company which is a resident of the other Contracting State, or which carries on business in that other State (whether through a PE or otherwise), shall not of itself constitute either company a PE of the other”.

- Existence of a subsidiary by itself does not constitute PE
  - Legal independence of the subsidiary respected
- Test of fixed base PE / service PE / agency PE need to be satisfied
Article 5 - Activities that do not result in PE

Exceptions in Article 5(4)

- Use of facilities for storage or display of goods
- Maintenance of stock of goods for storage or display
- Maintenance of stock for processing of goods
- Purchasing goods or merchandise or for collecting information for the enterprise
- Carrying on, for the enterprise, any other activity of a preparatory or auxiliary character
• Whether an LLP in which a foreign company is partner be construed as a PE?
• Whether Project Office is a PE?
• Is duration important for analysis of Installation PE?
• Whether a dependent agent securing orders in India constitute a PE?
• Whether a Liaison office conducting preparatory activities constitute a PE?
ARTICLE 7

Article 23 - Elimination of Double Taxation

Article 23 A - Exemption Method – Principles

• Country R does not tax the income which may be taxed in Country S

• Income which may be taxed in Country S is not taken into account by Country R; but Country R reserves the right to take the income into consideration when determining the tax to be imposed on the rest of the income

Article 23 B. Credit Method – Principles

• Country R calculates tax on total income including income from Country S which may be taxed in Country S; it then allows a deduction from its own tax for the tax paid in other Country

• Methods:
  • Full Credit
  • Ordinary Credit
  • Underlying Credit
Article 23 - Elimination of Double Taxation

Indian Company (I Co) has a wholly owned subsidiary in Singapore, ie S Co.

S Co intends to declare dividend out of the profits earned by it in Singapore and distribute the same to I Co. As per local laws of Singapore, S Co will have to pay 17% corporate tax on the profits earned by it. However, there is no Dividend Distribution Tax in Singapore.

Subsequently, I Co intends to declare and distribute dividends partially out of its own profits and partially out of the dividends received from S Co.

Whether I Co will be eligible to utilize underlying credit of the income tax paid by S Co against the tax chargeable under section 115BBD of the Act?
